**Marillion Designs is pleased to announce the release of RISC v10 for Windows – the best student welfare/discipline and merit manager available.**

With schools being more and more accountable for the way individual students are managed, it is essential that all schools maintain records of incidents, issues and concerns involving individual students in order to promote good discipline and effective learning in safe and happy environment.

The Register of Individual Student Contact (RISC) has been providing schools across Australia with a simple yet effective way of tracking issues of student welfare, discipline and merit since 1995.

Over 1,200 schools in NSW, Victoria, ACT, South Australia & Queensland are users of RISC. In 2012, the most powerful version of RISC has been released. RISC v10 is the highly anticipated update to this widely-used school management system offering numerous enhancements and benefits to schools.

RISC v10 is available to schools, both primary and secondary for only \$770 inc. delivery and GST. And that includes a school-wide licence! Run RISC v10 on as many computers at your school as you need. Using your school network, RISC v10 can be made available to all staff, so the best decisions about students can be made using the best information.
